Abdominal injury, pancreatitis and arthritis following, 126

Abortuses, prostaglandin induced E_2, diploidy in second trimester, 201

A cost-benefit analysis of videotape teaching in paediatrics, 44

Adolescents, who should provide medical care for — a psychiatrist's view, 80

Alcohol syndrome, fetal: implications to family and society, 101

Allergy, respiratory, in cystic fibrosis, 53

Anomalies, associated, a comparative review of: congenital intrinsic duodenal obstruction, 274

Antibiotic associated pseudomembranous colitis with toxic megacolon: two case reports in children, 287

Arthritis and pancreatitis following abdominal injury, 126

Assessment of an insulin regime and monitoring techniques in juvenile diabetics, 109

Asthma, chronic severe childhood, long term atropine in, 267
coexistent, in children with cystic fibrosis, validity of sputum eosinophilia in diagnosing, 205

A study of the relationship of ninety background developmental behavioural and medical factors to childhood accidents, 244

Atropine, long term, in chronic severe childhood asthma, 267

Australian infants, cord serum IgA levels in, 189

Automobile restraints, why parents do not provide for their children, 113

B

Bacterial infection in preterm infants during xanthine therapy for idiopathic apnoea of prematurity, 24

Beclomethasone dipropionate aerosol and cataracts, possible association between, 117

Book reveiws, 73, 155, 221, 296

Brisbane Drowning Study, an analysis from the: child safety and the public media, 166

C

Cardiomyopathy, infantile xanthomatous, 123

Cataracts and beclomethasone dipropionate aerosol, possible association between, 117

Cerebellar syndromes in occult neuroblastomas, 191

Cerebral palsy and neonatal mortality: the impact of neonatal intensive care, 35

Child abuse, predictive factors for, 239
health and social change in China over 22 years — a personal view, 159
safety and the public media. An analysis from the Brisbane Drowning Study, 166
